उप्र को लैंटाना से मुक्ति दिलाएगा एफआरआइ

जागरण संवाददाता, देहरादून: उत्तर प्रदेश के वन विभाग ने लैंटाना और पार्थेनियम जैसी आक्रामक वनस्पतियों के उन्मूलन के लिए वन अनुसंधान संस्थान (एफआरआइ) से मदद मांगी है। इसके लिए वन मंत्री डा. अरुण कुमार सक्सेना के नेतृत्व में शासन और वन विभाग की टीम एफआरआइ पहुंची। इस मौके पर सहयोग के लिए एफआरआइ के साथ एमओयू किया गया।

गुरुवार को उत्तर प्रदेश के वन मंत्री डा. अरुण कुमार सक्सेना की उपस्थिति में प्रधान मुख्य वन संरक्षक सुधीर कुमार शर्मा ने एफआरआइ निदेशक डा. रेणु सिंह के साथ एमओयू पर हस्ताक्षर किए। वहीं, अपर मुख्य सचिव मनोज सिंह ने कहा कि प्रदेश सरकार वार्षिक आधार पर 35 करोड़ पोषण कर रहा है। हालांकि, इसकी निगरानी के लिए तकनीकी तंत्र विकसित करने की जरूरत है।

उन्होंने कहा कि वन क्षेत्रों में लैंटाना, पार्थेनियम, ग्रीसोपिस जैसी आक्रामक

एफआरआइ के साथ वानिकी गतिविधियों में सुधार की दिशा में एमओयू पर हस्ताक्षर के बाद उत्तर प्रदेश के वन मंत्री डा. अरुण कुमार सक्सेना व अधिकारी • सल्लाह एफआरआइ

वनस्पतियों के उन्मूलन की दिशा में भी एफआरआइ से सहयोग की अपेक्षा है। उन्होंने उम्मीद जताई कि एफआरआइ इन कार्यों को परियोजना मोड में लेकर काम करे। इस दौरान उत्तर प्रदेश में बढ़ रहे लकड़ी आधारित उद्योग के लिए कच्चे माल

की सुलभता पर भी एफआरआइ के विशेषज्ञों के साथ विचार-विमर्श किया गया। उत्तर प्रदेश के वन मंत्री और अन्य अधिकारियों ने एफआरआइ के विभिन्न संग्रहालयों का भ्रमण करते हुए जानकारी एकत्रित की।

Visit Of Hon'ble Minister of State Minister (Independent Charge) Forest, Environment And Climate Change Department

● Govt of Uttar Pradesh along with senior forest department officials to FRI, Dehradun for collaboration

Dehradun (The Hawk): A delegation under the leadership of Hon'ble Minister of State (Independent Charge) Forest, Environment and Climate Change Department, Govt. of Uttar Pradesh Dr. Arun Kumar Saxena visited Forest Research Institute (FRI), Dehradun on 14.09.23. The Hon'ble Minister was accompanied by Shri Manoj Singh, Additional Chief Secretary, Environment, Forest and Climate Change Department, Government of Uttar Pradesh, Shri Sudhir Kumar Sharma, Principal Chief Conservator of Forests & Head of Forest Force, Uttar Pradesh Forest Department and other senior officials. The FRI team was led by Director, FRI Dr. Renu Singh, IFS and included senior officials and scientists. Dr. Renu Singh, IFS, Director, FRI

welcomed the delegation and gave an overview of the research and other activities being undertaken by the institute. Sh. Manoj Singh, Additional Chief Secretary stressed on the role of agroforestry in increasing green cover and stated that 35 crore plantations were being undertaken in the state on a yearly basis. He stated that collaboration would be needed in the field of capacity building for nursery development and management for seedling production of fast growing tree species. In this context, he mentioned the role of development of forward and backward linkages with farmers and industries to promote agroforestry in the state. Shri Sudhir Kumar Sharma, Principal Chief Conservator of Forests & Head of Forest Force, Uttar Pradesh Forest De-

partment spoke about the MoU signed between UP Forest Department and FRI, Dehradun. He spoke on the need to carry out monitoring of plantations being carried out in the state. He deliberated on the problem of invasion of Prosopis, Lantana and Parthenium in forest areas and wanted the same to be taken up by FRI in project mode. He also requested FRI to help in devising strategies for promotion of agroforestry in the state. Hon'ble Minister appreciated the work carried out by Forest Research Institute in the field of development of fast growing agroforestry species, disease resistant clonal varieties, timber seasoning, development of forest products etc. He stated that wood based industries are increasing in the state and suitable

raw material for the same needs to be produced. He mentioned that the state government is working towards the vision of the Hon'ble Prime Minister for increasing farmers income especially through agroforestry. He stressed that the govern-

ment of UP would be promoting agroforestry in a big way with an aim of increasing the green cover along with tackling the issue of climate change through carbon sequestration besides augmenting farmers income. During the course of the meeting presentations on plantation monitoring, introduction of Melia dubia in UP, Shisham mortality and its management, Rehabilitation of Prosopis and Lantana infested areas in UP, introduction of good quality bamboo germplasm, wood seasoning were carried out. An in principle agreement on collaboration in the most of the above mentioned areas was achieved during the meeting. The meeting was followed by a visit to FRI museums.

UP Minister of State visits Forest Research Institute

Collaboration with FRI was achieved in various fields

Dehradun, Sept 14 (HTNS): A delegation led by Minister of State (Independent Charge) Forest, Environment, Climate Change Department, Government of Uttar Pradesh Dr. Arun Kumar Saxena on Thursday visited Forest Research Institute (FRI), Dehradun along with senior officials.

Minister of State Dr Arun Kumar was accompanied by Manoj Singh, Additional Chief Secretary, Environment, Forest and Climate Change Department, Government of Uttar Pradesh, Sudhir Kumar Sharma, Principal Chief Conservator of Forests and Head of Forest Force, Forest Department and other senior officials.

On the other hand FRI team was led by Director, FRI Dr. Renu Singh, IFS and other senior officials and scientists.

Dr. Renu Singh, Director, FRI welcomed the delegation and gave an overview of the research and other activities being undertaken by the institute.

Manoj Singh, additional chief secretary stressed on the role of agroforestry in increasing green cover and stated that 35 crore plantations were being undertaken in the state on annual basis.

He stated that collabora-

tion would be needed in the field of capacity building for nursery development and management for seedling production of fast growing tree species.

In this context, Singh mentioned the role of development of forward and backward linkages with farmers and industries to promote agroforestry in the state.

Sudhir Kumar Sharma, Principal Chief Conservator of Forests and Head of Forest Force, Uttar Pradesh Forest Department spoke about the MoU signed between UP Forest Department and FRI, Dehradun. Emphasis on the need to carry out monitoring of plantations being carried out in the state was also given.

Deliberation was also done on the problem of invasion of Prosopis, Lantana and Parthenium in forest areas and impor-

ance of the same to be taken up by FRI in project mode.

He also requested FRI officials to help in devising strategies for promotion of agroforestry in the state.

Minister of State also appreciated the work carried out by Forest Research Institute in the field of development of fast growing agroforestry species, disease resistant clonal varieties, timber seasoning, development of forest products etc.

He stated that wood based industries are increasing in the state and suitable raw material for the same needs to be produced. He mentioned that the state government is working towards the vision of the Prime Minister Narendra Modi for increasing farmers income especially through agroforestry.

Further adding Minis-

ter stressed that the government of UP would be promoting agroforestry in a big way with an aim of increasing the green cover along with tackling the issue of climate change through carbon sequestration besides augmenting farmers income.

During the course of the meeting presentations on plantation monitoring, introduction of Melia Dubia in UP, Shisham mortality and its management, Rehabilitation of Prosopis and Lantana infested areas in UP, introduction of good quality bamboo germplasm, wood seasoning were carried out.

An in principle agreement on collaboration in the most of the above mentioned areas was achieved during the meeting. The meeting was followed by a visit to FRI museum by the delegation.
